

Gamban

Block Access to Online Gambling on All Your Devices

Minnesota Alliance on Problem Gambling is offering a free subscriptions to Gamban for anyone in Minnesota who would like to self-exclude from online gambling sites. The subscription is good for one-year and can be uploaded to 15 devices per household.

In Minnesota, gambling online is illegal and those that do find sites to gamble on are being directed to unregulated, offshore sites. These sites are notoriously predatory and do not have to play by the same rules as regulated casinos and legalized online sites. Players may find that payouts are not given when expected and are badgered to “reinvest” their winnings into more play. Gamban blocks tens of thousands of gambling sites.

If you or a client who would benefit from installing this tool, please contact Susan Sheridan Tucker, [sstucker@mnapg.org](mailto:ssticker@mnapg.org) to obtain the code.

All information is kept confidential.
